

SHOP COUNTER NOTICE

Scan Safe: UPI QR Fraud Defence

Scanning a QR can NEVER send money to you.

If an app asks for your PIN, you are PAYING — not receiving.

7 Scams to Refuse

- 1 "Scan this code to receive your refund / cashback / prize."
- 2 A new sticker glued over the shop's real payment QR.
- 3 Callers asking you to install screen-share apps.
- 4 Fake customer-care numbers from search or SMS.
- 5 "Collect request" pop-ups that actually debit you.
- 6 Overpayment screenshots demanding partial refunds.
- 7 Scanner apps shared through WhatsApp forwards.

Staff Daily Checklist

- ✓ Payer name on screen must match this shop's name — every payment.
- ✓ Check the QR sticker for tampering once per shift.
- ✓ Photo of the displayed code each morning as proof.
- ✓ Confirm money in OUR bank SMS, never a customer screenshot.
- ✓ No PIN sharing — with anyone, ever, including "bank staff".
- ✓ Only official app stores; use built-in camera scanner.

Fraud happened? Act in the golden hour:

Call 1930 immediately · File at cybercrime.gov.in · Then inform your bank

Free UPI QR Generator: qrcodegenerator.qrpress.in/upi

Print free from qrcodegenerator.qrpress.in/blog/upi-qr-code-scams · Share with every shop on your street.
Standard UPI payments carry no charge for merchants. Verify every payee name before confirming.
